

Cyber Lab PoC Report

This document summarizes the proof of concept (PoC) demonstrated in the provided screenshots.

Level 1

Used `ls -a` to identify hidden files, read `.secret_welcome.txt` to obtain `WELCOME FLAG{ls_master_linux}`, and counted lines/words in `hiddencyberlab.txt` using `wc`.

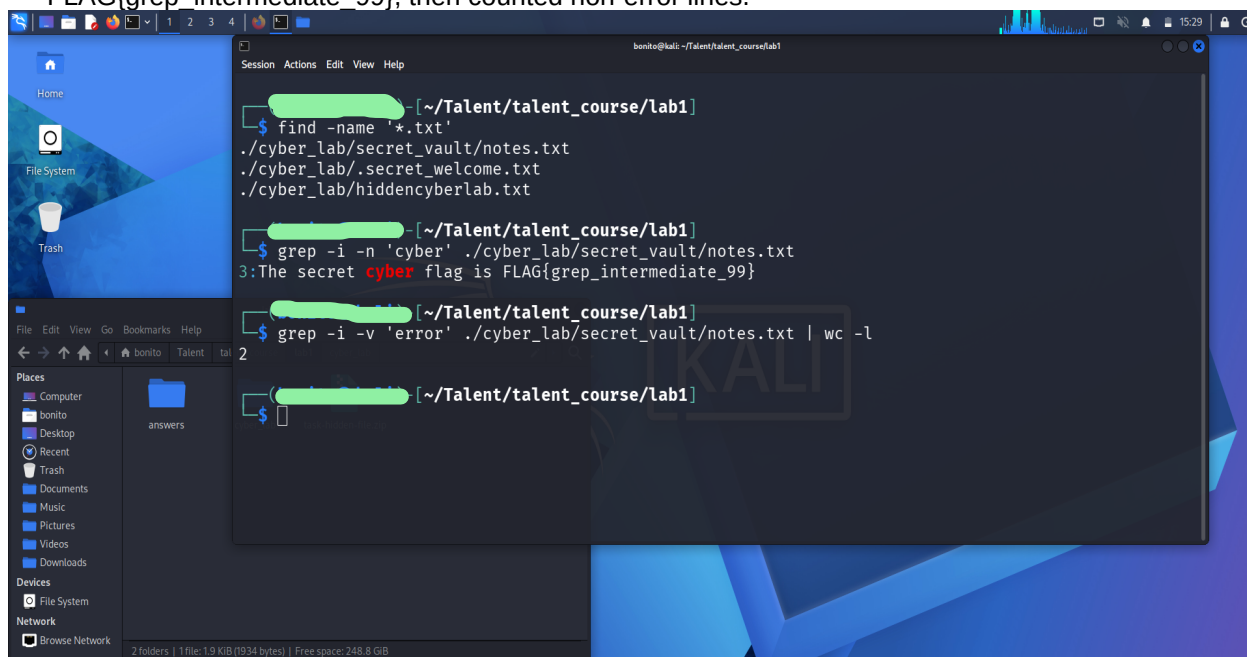

```
bonito@kali: ~/Talent/talent_course/lab1/cyber_lab
$ ls -a
.  ..  .secret_welcome.txt  hiddencyberlab.txt  secret_vault

$ find -name '.secret_welcome.txt' | cat .secret_welcome.txt
WELCOME_FLAG{ls_master_linux}

$ wc -l -w hiddencyberlab.txt
20 129 hiddencyberlab.txt
```

Level 2

Located text files with `find`, searched `notes.txt` using `grep -i` for 'cyber' to reveal `FLAG{grep_intermediate_99}`, then counted non-error lines.

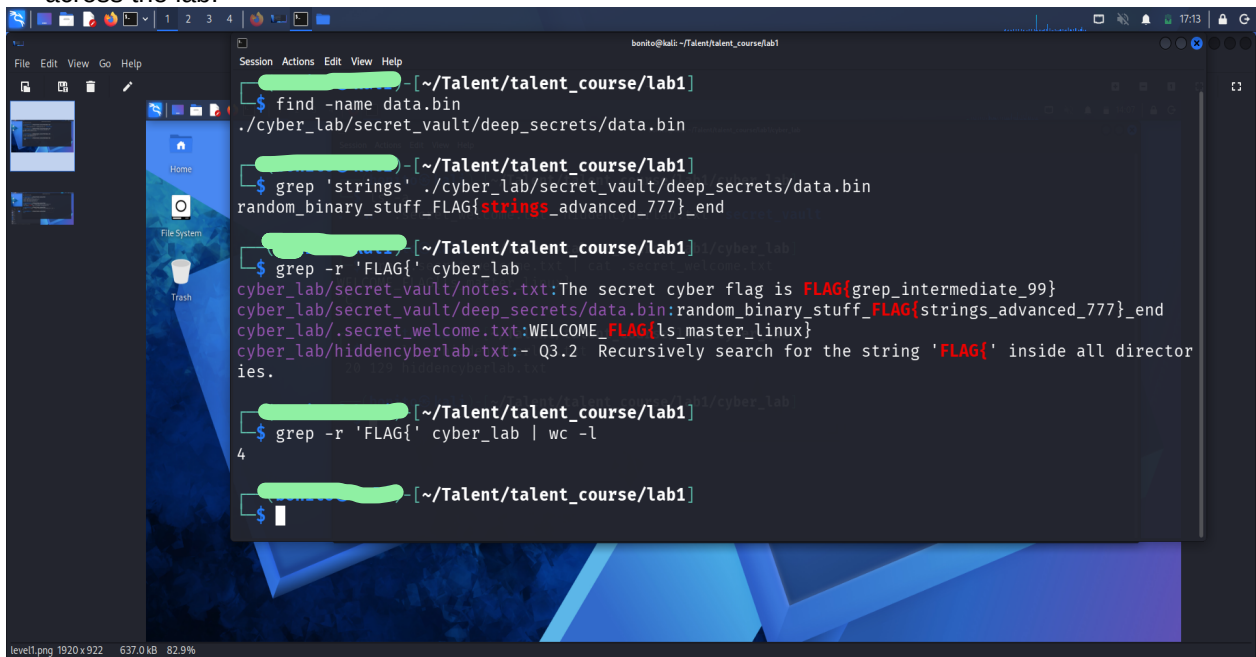

```
bonito@kali: ~/Talent/talent_course/lab1
$ find -name '*.txt'
./cyber_lab/secret_vault/notes.txt
./cyber_lab/.secret_welcome.txt
./cyber_lab/hiddencyberlab.txt

$ grep -i -n 'cyber' ./cyber_lab/secret_vault/notes.txt
3:The secret cyber flag is FLAG{grep_intermediate_99}

$ grep -i -v 'error' ./cyber_lab/secret_vault/notes.txt | wc -l
2
```

Level 3

Located data.bin, searched recursively for FLAG{...} strings and confirmed four FLAG occurrences across the lab.

The screenshot shows a Kali Linux desktop with a terminal window open. The terminal displays the following commands and output:

```
bonito@kali:~/Talent/talent_course/lab1
$ find -name data.bin
./cyber_lab/secret_vault/deep_secrets/data.bin

$ grep 'strings' ./cyber_lab/secret_vault/deep_secrets/data.bin
random_binary_stuff_FLAG{strings_advanced_777}_end

$ grep -r 'FLAG{' cyber_lab
cyber_lab/secret_vault/notes.txt:The secret cyber flag is FLAG{grep_intermediate_99}
cyber_lab/secret_vault/deep_secrets/data.bin:random_binary_stuff_FLAG{strings_advanced_777}_end
cyber_lab/.secret_welcome.txt:WELCOME_FLAG{ls_master_linux}
cyber_lab/hiddencyberlab.txt:- Q3.2 Recursively search for the string 'FLAG{' inside all director
ies.

$ grep -r 'FLAG{' cyber_lab | wc -l
4

$
```

The desktop background is a blue and purple abstract design. The terminal window has a dark theme with green and red text for emphasis.
